## Business Environment (3Q)

#### > Waste-related business

Japan: Industrial waste emissions remained flat.

Southeast Asia: Total waste emission was on the rise, though the emission of waste related to oil and natural gas development was sluggish.

### > Automobile-related business

Japan: The automobile production kept the amount. Overseas: Total production volume increased, especially in China and Southeast Asia.

### Electronic component- and Semiconductor-related business

New forms of energy: The demand remained increasing, particularly in the North American and Asian markets.

Smartphones: The market growth slowed globally.

### Metal prices and Exchange rates

Metal prices: The copper and zinc price increased, indium price dropped compared to the last quarter average.

Exchange rates: The yen's appreciation is on the rise initially, then the weak yen progresses after US presidential election.

### Trends in Major Products
